

SERVICE INFORMATION

NO : 8
TITLE : Key/mainboard B and B-HW series
MODEL : All B-HW round filter machines from May 2013
DATE : 01-05-2013

Reason for sending you this information

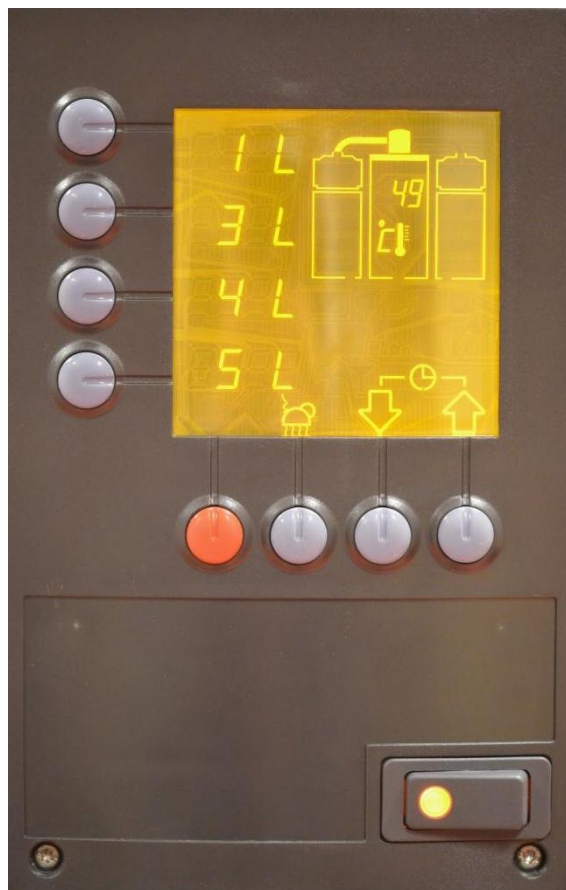

Due to the fact that the display of our round filter machines is not available anymore we are forced to provide the B and BHW columns with a new display.

Part Information

Due to this we changed the colour of the display to orange and black which improves the visibility of the display. Also the timing of error 3 in the software is adjusted to prevent the machine giving unnecessary error 3 codes.

Old display

New display

New Spare Parts

- Keyboard (for all B and B HW machines): 6.305.034.000
- Mainboard B series 230V: 6.305.035.000

- Mainboard B HW-5 series 230V: 6.305.041.000
- Flatcable: 6.305.043.000

Deleted Spare Parts

- None

Note:

For service on machines with an old keyboard you can still order the old keyboard and mainboard. At this moment we have enough stock of the old keyboards and mainboards to deliver spare parts for the next years.

If you have an old machine and wish to build in a new type of keyboard or mainboard, then this is only possible if you replace both keyboard and mainboard and mount a new flatcable.
