Professional and Compact Warming Solution for Any Kitchen

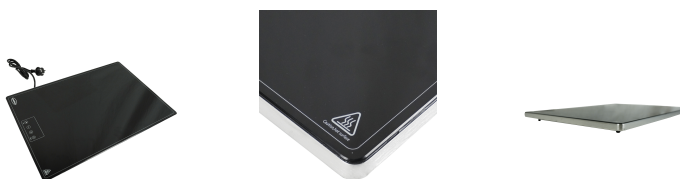

This versatile electric heated top unit is ideal for keeping dishes warm in a variety of settings. Whether you work in a professional kitchen, run a buffet, or organize events, this compact and efficient unit keeps your dishes at the right temperature and well-presented. Operation is simple via the modern touchscreen, and for added safety, the warming plate is equipped with a child lock: when activated, no other temperature settings can be selected. The lock engages in 1 second and unlocks in 3 seconds. Dimensions: 550x380x25 mm (WxDxH) – Temperature range: +60/+105°C – Power consumption: 0.23 kW – Weight: 4 kg

Key Features:

- **Suitable for 1/1 GN pans:** perfectly fits standard gastronorm sizes.
- **Even heat distribution:** keeps your dishes warm without burning.
- **Adjustable temperature:** easily tailored to different types of food.
- **Compact and elegant design:** ideal for buffets, food trucks, and small kitchens.
- **Easy to maintain:** smooth glass surface is quick and easy to clean.

Whether you're in the hospitality industry or simply looking for a reliable way to keep food warm, this heated top unit is your perfect solution. Order now and experience professional warming performance!
