MONDO

# Serve fresh aromatic filter coffee

ANYTIME, ANYWHERE

The Mondo is the definition of a classic. It has proven its quality and reliability over time and shown to be outstanding of its kind. Serving rich flavoured and aromatic filter coffee for generations.

**No plumbing required**

Place it anywhere. You don't need a water connection

**Fast brewing performance**

12 cups ready in 5 minutes; 144 per hour

**Reliable and low-maintenance**

Self-regulating hot plates and descaling alerts

MONDO

# Features & Benefits

Separate hot plates for multiple decanters

Keeps multiple pots of coffee warm independently, so you always have fresh, hot coffee ready for different groups or locations.

Filter coffee system with glass decanters

Brew and serve in the same container. Ideal for fast-paced environments with minimal cleanup and no need to transfer liquids.

Simple control panel with status indicators

Easy for any staff member to operate, with clear signals that reduce training time and user error.

MATIC

# All-round user-friendly experience

DELICIOUS AND SIMPLE

Simplicity, sophistication and speed is all about the Matic machine. The Matic makes serving coffee effortless, which is ideal for environment that values ease and style.

## Direct water connection

No need to refill. The Matic connects directly to your water supply for seamless, uninterrupted brewing.

## Fast, high-capacity output

Brew and serve in the same container. Ideal for fast-paced environments with minimal cleanup and no need to transfer liquids.

## Smart operation & maintenance

Select your desired number of cups (125 ml each) and brew at the touch of a button. The machine even alerts you when it's time to descale.

MATIC

# Features & Benefits

Dual hot plates with two decanters

Serve one pot while brewing the next. Perfect for continuous service during busy periods.

Digital cup selection

Choose between 2 to 12 cups at the push of a button. It reduces waste and simplifies control.

Compact & durable stainless steel build

Sleek, space-saving design that's built to last. Easy to clean and fits any professional setting.

It is the perfect cup of coffee that gets us up in the morning. It is what keeps us going throughout the day.

BRAVILOR BONAMAT

## MONDO TWIN

### Double the output, same flexibility

Brew more, anywhere. The Mondo Twin expands on the original Mondo's portability by featuring two manual-fill brewing systems and four hot plates, allowing up to 28 litres of fresh filter coffee per hour. With no water connection required, it's ideal for mobile setups and temporary locations. Each brewing unit includes a clear water level indicator and intuitive signals for 'coffee ready' and descaling. Perfect for high-volume demand without the hassle of installation.

Mondo Twin

## MATIC TWIN

### Connected powerhouse for continuous brewing

Built for busy environments, the Matic Twin doubles the Matic's capacity with two brewing systems and four warming plates, all connected to a fixed water line for automatic refill and continuous brewing. Producing up to 28 litres per hour, it's designed for locations where speed, volume, and consistency are key. Like hotels, offices, and conference centers. The digital controls, descaling alerts, and LED indicators ensure a smooth and effortless user experience with every brew.

Matic Twin

MONDO / MATIC MARINE

# Professional brewing at sea

**Bravilor Bonamat's marine models are engineered for reliable performance in demanding maritime environments.**

The Mondo Marine offers a manually filled solution, brewing up to 18 litres per hour with two self-regulating warming plates. Its compact stainless-steel design, fixing kit, and jug holders make it ideal for ships, naval vessels, and offshore platforms without fixed plumbing.

For locations with a direct water supply, the Matic Marine provides the same brewing capacity with the added convenience of automatic water refill. Its sturdy construction, integrated fixing features, and intuitive controls ensure stability and safety even in rough conditions. Both models include LED indicators, descaling alerts, and durable components. Guaranteeing a smooth and efficient brewing process wherever you are on the water.

Matic Marine

TH ( a )

# Serve fresh filter coffee anywhere

FRESH AND LASTING

Discover new kind of comfort, the TH brews coffee anywhere and ensures it stays fresh and flavourful for a lasting period.

## Brew anywhere, no plumbing required

The TH's manual-fill design lets you brew directly into Airpot or vacuum flasks. Perfect for mobile setups and locations without fixed water connections.

## Professional finish, built to last

Crafted from stainless steel with elegant black accents, the TH blends durability with a sleek, modern look suited for any service environment.

## Effortless brewing, perfect results

Signal lights indicate when coffee is ready or descaling is needed.

TH ( a )

# Features & Benefits

## Manual-fill water tank

Gives you total flexibility - just plug in and brew, no plumbing required. **For fixed installations, choose the THa with automatic water connection.**

## Fast brewing, high capacity

Brews 2.2 L of filter coffee in just 7 minutes, producing up to 19 L per hour. Ideal for offices, catering, and hospitality use.

## Clean, direct-to-Airpot brewing

Designed to brew directly into a vacuum flask or Airpot, preserving heat and flavour while reducing spills and clean-up time.

ISO

## Fresh filter coffee, simplified

The Iso is a reliable filter coffee machine that's easy to use and can be placed anywhere. You don't even need a water connection. It brews up to 18 litres of coffee per hour and comes with a stainless steel vacuum flask that keeps the coffee hot for hours, without the need for a hotplate. As a simplified version of the TH(a) the Iso offers all the essentials for everyday coffee moments.

### Place it anywhere

Manual-fill design with stainless steel vacuum flask, no water connection needed.

### Brews fast, serves plenty

2 L ready in 6 min, up to 18 L per hour—coffee stays hot in the included vacuum flask.

### Essential performance

Built with simplified materials, offering core functionality for everyday use.

NOVO

## Simply great Filter coffee

The Bravilor Novo is a straightforward filter coffee machine designed for practical, everyday use. It works without a direct water connection, so you can place it wherever needed. As a simplified version of the Mondo, the Novo delivers dependable performance with essential features. Brewing directly into a 1.7 L glass decanter, ideal for offices, waiting areas, or hospitality counters.

### Flexible placement

Manual-fill system. no plumbing required.

### Quick brew cycle

Brews 1.7 L in about 5 minutes.  
Ready when you are.

### Focused functionality

Built with essential features and two self-regulating hot plates to keep coffee at the right temperature.
