

Service Information

TITLE: Software Information
MODEL: Esprecious 11, 11L, 12, 21L and 22
DATE: 05-07-2018

Reason for sending you this information

To avoid problems during installation of a new service panel or updating a machine, we would like to draw your attention to the following:

When installing a new service panel or updating the software on an Esprecious you need to be sure that you use the correct software, this because we have different software versions available.

For the installation of a new service panel you will need the software indicated with:

[Service panel EU+US languages](#) or [Service panel Asian languages](#)

For the update of an existing Esprecious machine you will need the software indicated with:

[Machine update EU+US languages](#) or [Machine update Asian languages](#)

The right software can be found on our website under the relevant machine.
