

**TITLE** : Improved CIRCO brewer 2.0

**MODEL** : Sego (L) & Sprso

**DATE** : 2024-10-30

**NUMBER** : SI241030

---

## Reason for sending you this information

We want to inform you about the introduction of the improved CIRCO brewer 2.0 for the Sprso and Sego machines.

We have further improved the durability of certain parts of the CIRCO brewer.

### Part information:

The CIRCO brewer 2.0 is compatible with older Sego and Sprso machines.

However due to a minor dimension increase of the cylinder we also supply an adapted grinder outlet and a bracket for the outlet tubes with the cylinder (6.000.331.114) for the Sego.

For the Sprso the minor dimension increase has no effect so no other parts are delivered with the cylinder.

Certain service parts for the CIRCO brewer have changed according the improvements.

Please check the updated exploded views on our website for further information.

- ▶ The first machine equipped with the new CIRCO brewer will be produced in Q4 2024.

### New Spare Part:

- 6.000.431.036 CIRCO brewer 2.0 service set (applicable for the Sego and Sprso)

#### Sego (L)

- 6.000.331.112 CIRCO brewer 2.0 Sego
- 6.000.331.114 Cylinder CIRCO brewer 2.0 Sego (also contains an adapted grinder outlet and an adapted bracket for the outlet hoses due to minor dimension change of the cylinder)

#### Sprso

- 6.000.431.033 CIRCO brewer 2.0 Sprso
- 6.331.862.000 Cylinder CIRCO brewer 2.0

### Deleted Spare Part:

- 6.000.331.049 CIRCO brewer Sego
- 6.000.431.007 CIRCO brewer Sprso
- 6.000.331.079 Cylinder
- 6.000.331.083 Service set CIRCO brewer
- 6.000.331.078 Piston CIRCO brewer
