

TITLE : Sego L improvements

MODEL : All Sego L models

DATE : 2024-04-08

NUMBER : SI 240408

Reason for sending you this information

Improvements to the Sego L fresh milk dosing system, an adjustable time for the milk rinse and a cleaning log.

Part and software information:

New software V2.12:

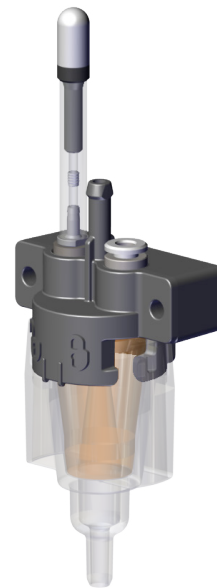

- improves the stability of fresh milk dosing with a more stable steam pressure
- an adjustable clean shot interval of 3 or 10 minutes has been added
- added a cleaning history log to check that the fresh milk section has been cleaned

The first machine with the new Air restriction and software has serial number **020002480553**

Old

New

Changed Spare Part:

- 6.000.331.091 Milk frother complete with new Air restriction, will be the same number with new parts

Deleted Spare Part:

- 6.000.331.094 Air restriction (old type)

► *The old and new air restrictions are not interchangeable.*

To replace the old air restriction, order the 6.000.331.091 'Milk frother complete' which contains the customised parts.
