- Dispensing tubes not supplied

Milk cooler with feed tubes for coffee machines

A superb counter top glass door fridge for dispensing milk. The unit comes with six rubber bushed holes (with plugs). Two in the top and two in each side. These are designed to insert tubes into milk cartons inside the fridge, to supply coffee machines or other drinks machines that automatically add milk. Suitable for maximum of 18mm diameter tubes for dispensing.

Ideal for cafés, coffee and sandwich shops
