MTO

Award winning taste range with Morro™ plastic-free coating

Designed for circularity, and feature a natural plant polymer coating, made without chemical modification, ideal for high-pressure hot food and delivery environments.

They meet growing consumer demand for plastic-free coatings that offer excellent grease and leak resistance.

Morro™ - Coated Taste boxes are not subject to restrictions under SUPD and are optimised for EPR fees. These premium boxes are UK manufactured from responsibly-sourced papers and offer co-branding opportunities with all-over 5-colour printing to fully showcase your brand's sustainability values.

NEW Taste LITE Boxes

Our new Taste Lite containers have the same great features as the previous product range, but they contain less plastic: lightweight re-pulpable and recyclable materials with less than 5% PET content, supporting circular economy principles. Taste Lite containers still keep food delicious, is leak proof and suitable for reheating, hot cabinets, ovens and even freezing. The Taste Lite range brings streamlined portion control and strong shelf appeal.

- Four size options (500ml, 750ml, 1000ml, 1250ml) help operators reduce waste and match pack to portion. **Serve consistent portions and protect product quality.** Standardised case sizes for easy storage and handling.
- New Microflute design is leak resistance and venting: **Relocated thumb-cut vent holes** improve leak resistance and enable easier venting to reduce condensation. The **new leaf style rPET Window** provides a sleek, premium look while maintaining clear product visibility.
- It is durable and **maintains food temperature in delivery effectively.** Built for busy kitchens and on-the-go customers: Dual-ovenable / microwavable, freezable, and suitable for all hot cabinets. Simple single-closure for quick, secure packing.
