# ***PREMIUM CHARCOAL***

## ***Trailblazer Lumpwood Charcoal (12kg)***

Our high grade screened South African restaurant grade charcoal is quite simply revolutionary and outperforms any other catering grade charcoal on the market.

Each 12kg weather resistant bag contains extremely clean and well graded wattle made purely from eucalyptus wood that suits the Trailblazer range like a glove! We have had our Trailblazer 600s lit and ready to cook on in 10 minutes using this product.

***£17+vat per single bag,***

***£16 per+vat bag for half pallet (20 bags)***

***£15.50+vat per bag for pallet (40 bags)***

## ***Heat Beads Briquettes (10kg)***

Head Beads have been trialed and tested throughout the Trailblazer range. The Australian Heat Beads burn at a consistent temperature for longer than lumpwood charcoal meaning the sustained heat output is ideal for cooking “low & slow”.

This product, therefore, is excellently matched for the Trailblazer VS200 Smoker & 600 Streetmaster.
